

Type	Train Simulator 2018 - Addon
Author	Benjamin Ebrecht
Version	1.2
Date	08.11.2017
Contact	ebrecht@trainteamberlin.de

Preamble

Dear Customer,

we're very pleased that our Addon "TS2018 - Scenario Package Munich-Augsburg" got such a great echo. So we decided to create a ServicePack which brings new content and several enhancements. In this sense, we wish you as much pleasure with this addon as we had while creating it.

TrainTeamBerlin
Berlin, November 2017

Installation

You have to execute the setup file to install „TS2018 - Scenario Package Munich-Augsburg 1.2“. The update content is included in the main addon installer.

Content

In the following we want to give a short overview about the new content:

- included BugFix 1.14:
 - Scenario 02 / 02noPP: removed eventually appearing error screen concerning the engine "TTB 145 010"
 - used PlusPack BR151 removed from Scenario 11
 - corrected file linking of AI engines "143 911 RBH", "151 081 RBH" and "151 084 DB Cargo"
 - corrected ICE2 full-length-consists (rear BR808 was flipped)
 - corrected provider folder of BR 143/151 in manual
- fixed "missing texture" error for passengers of type n coaches
- fixed "missing texture" error at pantograph of ICE1 engine "BR401 M DB"
- fixed wrong sound links of ICE2 engines (BR402/808) to ICE1-Sounds
- two new freight loadings for wagon type Rmms 662: excavator and bulldozer
- improved freight wagon sound: volume in cabview of passing freight trains is now dependent of sound-config of the cabview
- sounds improved on the same way: BR101, BR110, BR218, Dosto-, IC-, n-coaches, ICE1, ICE2, ICE-T
