## 1. Preamble

Dear Customer,

we're very pleased that our Addon "Class 101 PlusPack" got such a great echo. So we decided to create a ServicePack which brings besides several Enhancements completely new locos and scenarios. In this sense, we wish you as much pleasure with this addon as we had while creating it.

## 2. Installation

You have to execute the file setup.exe to install „Railworks Class 101 PlusPack - ServicePack 1.1“. The automatic install routine is opening. Follow the instructions and install the addon in your railworks main folder. This is detected automatically in most cases as well as your serial number. With this you finished the installation.

## 3. Inhalt

We want to shortly overview the new contents in the following:

- Installation of the "enhanced HP Signal scripts" in the actual Version 1.3
- Installation of the TAB-Trigger in some Scenarios of the Version 1.0 - so you will no longer need the TAB key in some situations
- Bugfix of a mesh fault of the 101 047 "Feuerwehr". No longer flickering at the roof vents
- Completely improved loco scripts with many enhancements like
  - again improved traction force gauge
  - better handling of overlapping PZB monitorings
  - PZB now working with the Munich Augsburg line
- Quickdrive-Consists for all Ad-Locos including image thumbnails
- three completely new locos and two scenarios for the Cologne Düsseldorf route (details below) and several other

### New locos:

- 101 004 - red, no Ad, dirty
- 101 060 - Ad "Bundespolizei"
- 101 144 - Ad "Hertha BSC"

We want to thank the rightholders at this place for allowing us to use their lettering!

### Scenarios:

#### Colone - Düsseldorf

##### TTB 01: IC2403 Hamburg - Colone

*Loco: 101 144 "Hertha BSC"*  
*Difficulty: middle*  
*Season / Weather: Spring / Rain*  
*Time: 16:53*  
*Duration: 0:30 Stunden*

*Description: You take the IC2403 to Cologne in Düsseldorf with a delay of about five minutes. Another delayed InterCity to Cologne will drive in front of you - so be prepared for red signals and never forget to acknowledge active PZB magnets. After a short stop in Cologne Deutz because of a red signal you will reach Cologne central station just in time.*

##### TTB 02: IC 1922 - with delay to Düsseldorf

*Loco: 101 060 "Bundespolizei"*  
*Difficulty: difficult*  
*Season / Weather: Winter / Rain*  
*Time: 13:14*  
*Duration: 0:25 Stunden*

*Description: You nearly reached Cologne central station with a delay of ten minutes. Drive the train to Düsseldorf as fast as possible for reducing your delay. It won't be possible to reach Düsseldorf in time, so don't worry about the red cross in the scenario evaluation.*
